Java developer | | software developer | | web developer

Location : Ahmedabad, Gujarat, India

Email : jay.prajapati9442@gmail.com | Phone: +91 8849820631 | LinkedIn : jay-prajapati-05j | GitHub:jay4756

## Professional Summary:

Aspiring Full Stack Web Developer with a solid foundation in Java, Spring Boot, ReactJS, and MySQL. Proficient in building responsive web applications and RESTful APIs. Passionate about leveraging technology to solve real-world problems. Seeking an internship or entry-level software development role to apply and expand my technical skills in a professional environment.

## Technical Skills:

- Technical skill: - Java , JavaScript ,HTML , CSS , Python ,SQL
- Framework/library :-Spring Boot , Spring Data JPA ,React JS ,Tailwind CSS, Bootstrap
- Tools: - vs code, GitHub, Microsoft word, Microsoft point,MySQL, ChatGPT, other AI tools.
- Soft skill: - communication, Presentation, Time Management.

## Projects:

### 1. Book Store

- Developed a dynamic online bookstore web application using Java Spring Boot for backend services Implemented and HTML/CSS/Bootstrap for responsive frontend design
- features like user authentication, product listing, search functionality, and shopping cart integration
- Applied MVC architecture to ensure separation of concerns and scalability
- Enhanced UI with Bootstrap components for a seamless user experience across devices
- Gained practical experience in RESTful APIs, Spring Data JPA, and handling MySQL database connections

### 2. Portfolio

- Designed and developed a personal portfolio website to showcase projects, resume, technical skills, and professional background
- Integrated responsive design principles to ensure optimal viewing across desktops and mobile devices
- Emphasized clean UI using Bootstrap components and customized CSS styles
- Included links to GitHub repositories, project summaries, and contact form for potential opportunities
- Demonstrates proficiency in frontend development, user-centric design, and professional communication

### 3. Rakhi

- Created a fun Raksha Bandhan prank project. Designed a festive front page with heartfelt wishes. Added a playful gift section with mock options, each leading to a humorous “not for you” notification.
- In this project I use HTML,CSS, Bootstrap , JavaScript

### 4. Login/Register Form

- Created register form using HTML, CSS, JavaScript , react , tailwind . It is a basic form.

## **Education:**

---

Bachelor of Engineering ( IT )

Government Engineering college, Modasa
