JAY PRAJAPATI

Java Full Stack Developer | DevOps

Ahmedabad, Gujarat, India | jay.prajapati9442@gmail.com | +91 8849820631
LinkedIn: linkedin.com/in/jay-prajapati-05j | GitHub: github.com/jay4756

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building web applications using Java, Spring Boot, React.js, and MySQL. Skilled in designing REST APIs and integrating them with databases. Familiar with Docker, Linux, and AWS deployment, and experienced in data analysis with Python. Quick to learn new tools and focused on clean, maintainable code.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL, HTML5, CSS3, PHP

Frameworks & Libraries: Spring Boot, Spring Data JPA, React.js, Tailwind CSS, Bootstrap, NumPy, Pandas, Matplotlib, Seaborn

DevOps & Cloud: Docker, Linux, AWS (core services)

Tools: VS Code, GitHub, MySQL, Postman, Microsoft Office, AI tools

Soft Skills: Communication, Presentation, Team Collaboration

EXPERIENCE

Java Full Stack Developer (Intern) | Zidio Development, Remote | August 2026 – September 2026

- Developed a Field Management System using Java, Spring Boot, Spring Data JPA, and MySQL.
- Built the backend with Spring Boot and managed database operations through Spring Data JPA.
- Created a responsive user interface with React.js, HTML, and Bootstrap, and integrated it with the backend.
- Collaborated with team members and followed standard software development practices.

PROJECTS

Food Store | github.com/jay4756/food-store

- Built a full stack food store application with React.js, HTML5, and Bootstrap.
- Developed a Spring Boot REST API with Spring Data JPA and MySQL.
- Containerized the application with Docker and deployed it on an AWS Linux server.
- Created for a hackathon; participation certificate available.

Course Management System | github.com/jay4756/full-stack-project

- Built a responsive React.js interface with dynamic course listings and navigation.
- Developed a Spring Boot REST API supporting full CRUD operations for courses and users.
- Integrated MySQL using Spring Data JPA for data persistence.

Brain Boost Game | github.com/jay4756/BrainBoostGame-

- Built a responsive quiz game interface with React.js and Bootstrap.
- Developed a Spring Boot backend to manage game state, scoring, and quiz logic.
- Stored user profiles and high scores in MySQL using Spring Data JPA.
- Tested and documented API endpoints using Postman.

Portfolio Website | github.com/jay4756/Portfolio

- Built a responsive portfolio website with React.js using reusable components.
- Styled with Tailwind CSS and semantic HTML5 using a mobile-first approach.

EDUCATION

Bachelor of Engineering (Information Technology) | Government Engineering College, Modasa | 2023 – 2027 | CGPA: 8.07

CERTIFICATIONS

- Java — Simplilearn
- Python — Infosys Springboard
- Advanced HTML — Infosys Springboard
- Effective Presentation Skills — Infosys Springboard
- Generative AI — LinkedIn
